

G BHANU PRASAD

Java Backend Developer | Spring Boot | REST APIs | MySQL

Bengaluru, India • +91 9392801041 • gbhanuprasad1236@gmail.com
github.com/gbhanuprasad5261 • linkedin.com/in/g-bhanu-prasad

PROFESSIONAL SUMMARY

Entry-level Java Backend Developer (Fresher) and B.Tech graduate in Computer Science (AI & Data Science) with hands-on experience building RESTful APIs using Java, Spring Boot, Spring MVC, Spring Data JPA, and Javalin. Skilled in layered MVC architecture, CRUD operations, DTO pattern, token-based authentication, global exception handling, and MySQL database design. Experienced in unit testing with JUnit & Mockito and version control with Git/GitHub. Trained through Revature's Java Full Stack Pre-Training Program. Seeking a Java Developer, Backend Developer, or Graduate Trainee role.

TECHNICAL SKILLS

Languages: Java (Java 11), SQL

Frameworks & Libraries: Spring Boot, Spring MVC, Spring Data JPA, Javalin, Hibernate, JDBC

Testing & API Tools: JUnit, Mockito, Postman

Databases: MySQL, H2

Tools & Version Control: Git, GitHub, Maven, VS Code

Core Concepts: REST API Design, OOP, MVC Architecture, Layered Architecture, Microservices Fundamentals, Exception Handling, Multithreading, Data Structures & Algorithms

PROJECTS

RecipeHub – Backend REST API | github.com/gbhanuprasad5261/recipe-management-api

Tech Stack: Java 11, Javalin, Maven, H2, JUnit, Mockito

- Built 13 REST endpoints across 3 controllers (RecipeController, IngredientController, AuthenticationController) with full CRUD for recipes and ingredients.
- Secured write operations (POST, PUT, DELETE) with Bearer token authentication; registration handles 201 Created and 409 Conflict on duplicate username.
- Implemented layered MVC architecture (Controller → Service → Repository); unit and integration tested with JUnit & Mockito on localhost:7000.

Spring Social Media Blog – REST API | github.com/gbhanuprasad5261/spring-social-media-api

Tech Stack: Java, Spring Boot, Spring MVC, Spring Data JPA, H2, Maven

- Built 8 REST endpoints using Spring Boot @RestController covering user registration, login, and full message CRUD across Account and Message domains.
- Used @PatchMapping for partial updates (REST best practice); handled ResponseEntity status codes (200, 400, 401, 409) with validation for null inputs and conflicts.
- Applied layered MVC architecture with Spring Data JPA, @Autowired constructor injection, duplicate username detection (409), and credential validation (401).

Expense Tracker – REST API | github.com/gbhanuprasad5261/expense-tracker

Tech Stack: Java 17, Spring Boot, Spring Data JPA, Hibernate, MySQL, Maven, Postman

- Developed a full CRUD REST API for managing daily expenses with Create, Read, Update, and Delete operations.
- Implemented DTO pattern, a dedicated Service Layer, and global exception handling for clean, maintainable code.
- Persisted data using Spring Data JPA and Hibernate with a MySQL backend; tested all endpoints with Postman.

PROFESSIONAL DEVELOPMENT

Java Full Stack Pre-Training Program | Revature, Remote

Nov 2025 – Feb 2026

- Trained in Core Java, Spring Boot, Spring MVC, REST API development, and MySQL database integration.
- Built backend applications using Controller–Service–Repository architecture; practiced Git version control workflows.

INTERNSHIP

Full Stack Java Intern (Training) | QSpiders, Bangalore

Oct 2023 – Dec 2023

- Built JDBC-based applications with MySQL connectivity; strengthened Java fundamentals (OOP, exception handling, multithreading) through practical training.

EDUCATION

B.Tech – CSE (AI & Data Science) — Siddhartha Inst. of Science & Technology, Puttur | CGPA: 7.29/10

2021 – 2025

Intermediate – MPC — Sri Sai Chaithanya Junior College, Palamaner | 65%

2019 – 2021

Certification: NPTEL – Introduction to Internet of Things, IIT Kharagpur | Elite Certification, Score: 60% | Jan – Apr 2024
